This reading list was compiled by Ian Bell, formerly Project Leader, Visual Impairment and Autism Project. For more information about the Project, please see the article *The Visual Impairment and Autism Project* which is also available on Ian’s website. The article includes information on the guidance for practitioners developed by the Project team. This was revised in 2015. Details of the changes made to the guidance material are given in the pdf *The revised and expanded Visual Impairment and Autism Guidance Material – July 2015*.

This list of references is available as a pdf at [http://ianpbell.com/visual-impairment-autism/](http://ianpbell.com/visual-impairment-autism/).

**NB** The inclusion of an item on this list does not indicate any form of recommendation. This list should not be regarded as complete. It is updated periodically, but it is likely to omit very recent publications.
